

Castle Attack!

Year 4

To introduce our topic, we visited Kenilworth Castle, where we learnt all about castle life.

One of our favourite parts of the day was the birds of prey show. It was amazing to watch the eagles swoop down over our heads!

We investigated the ruins, gazed up at the enormous protecting walls and imagined the surrounding field filled with water.

To celebrate the end of our topic, we visited Warwick Castle. We were able to climb the spiral staircase to the top of the tower, where we had an amazing view of the town.

We re-enacted the 6 month long siege which took place at Kenilworth Castle in 1266. The war was part of an English Civil War fought from 1264 to 1267.

In the Young Engineer Academy, we worked in groups to design and make a model castle.

We had to ensure we included all the features of a castle such as; ramparts, drawbridge, arrow slits and towers.
