Year 1 Virtual Timetable

Writing

Our writing lessons will be posted at 9:00 every day. There will be a short 20 minute video for you to work through. Make sure you watch the video carefully and pause it where you are asked to. There will also be an end of lesson activity attached on a google form. You need to follow the link and fill this in too.

Maths

Our Maths lessons are posted at 09:00 every day. This half term we are doing a recap of number and place value and then we'll be going over the four operations. Remember, you can watch the video more than once! Make sure you pause the video when you are told and write down your thoughts. Each lesson will have worksheets attached that you can edit, or create your own google doc.

Reading and Phonics

We will have phonics everyday, using Read Write Inc videos. These will follow the same structure as in school. We will also have reading sessions where we look at extracts and answer questions. At the end of the day, we will have story time.

Afternoon lessons

Every afternoon, we will post a science, geography, PD or art lesson. In science we are using Developing Experts. In geography we are studying the Antarctic we have lots of fun activities.

Drop-in sessions

Every day, we have 2 drop-in sessions before and after lunch. These are optional, and they are time for you to pop on to the live chat to talk

to your teachers about your learning and ask questions.

Story Time

Every day will end with live show & tell or story time. We would love to see as many of you as possible at this time, but we know that brothers and sisters might want to join their

story time some days, so you may need to take turns!

Make sure you take regular breaks from the screen to move around. Stay healthy by doing the PE activities that will be posted and keep yourself active.
