Year 4 Virtual Timetable

Writing

Our writing lessons will be posted at 8am every day. There will be a short video for you to work through and then one or two activities. Make sure you watch the video carefully and pause it where you are asked to.

Maths

Our Maths lessons are posted every morning from 8am. This half term we are doing multiplication and division. The videos will help you to use the method we use at Parkfield. Remember, you can watch the video more than once!

Reading

In reading this term we will be looking at some different extracts and practising our comprehension skills. We will be learning lots of new vocabulary and reading some great texts, including poetry, fiction and non-fiction.

Afternoon lessons

Every afternoon, we will post a science, geography, PD or art lesson. In science, we are looking at classification. Our lessons will be posted on Developing Experts. In geography we are studying Antarctica - we have lots of fun activities planned!

Drop-in sessions

Every day, we have 2 drop-in sessions before and after lunch. These are optional, and they are time for you to pop on to the live chat to talk to your teachers about your learning and ask questions.

Story Time

Every day will end with live show & tell or story time. We would love to see as many of you as possible at this time, but we know that brothers and sisters might want to join their story time some days, so you may need to take turns!

Make sure you take regular breaks from the screen to move around. Stay healthy by doing the PE activities that will be posted and keep yourself active.
