Writing

In writing this term we will be looking at writing our own stories. We will be using the writing rainbow to ensure our writing is interesting. Daily grammar videos will also be shared, which will help develop our sentence structures.

Maths

Our Maths lessons are posted at 10:00 every day. This half term we are learning about fractions. Remember, to have some paper and a pen to try the questions while you watch the video, and you can watch it more than once!

Reading

In reading this term we will be looking at some different extracts and practising our comprehension skills. We will be learning lots of new vocabulary and reading some great texts, including poetry and fiction.

Afternoon lessons

Every afternoon, we will post a science, geography, PE or art lesson. In science, we are looking at uses and properties of different materials. Our lessons will be posted on developing experts. In geography, we are studying Brazil we have lots of exciting activities planned!

Drop-in sessions

Every day, we have 2 drop-in sessions before and after lunch. These are optional, and they are time for you to pop on to the live chat to talk to your teachers about your learning and ask questions.

Story Time

Every day will end with live show & tell or story time. We would love to see as many of you as possible at this time, but we know that brothers and sisters might want to join their story time some days, so you may need to take turns!

Make sure you take regular breaks from the screen to move around. Stay healthy by doing the PE activities that will be posted and keep yourself active.
